

## PROJECT SCOPE STATEMENT

### Project Name

Project Vitality

### Project Deliverables

[High-level deliverable from the WBS is listed here.]

[Descriptions of current programs.]

[We will curate a list of current programs run by the UN that align with the three problems we aim to address with our project (breastfeeding awareness, first 1000 days of child's life, and micronutrient intervention). This will give an overview of the current programs and aid the information already provided on our website. ]

[High-level deliverable from the WBS is listed here.]

[Educational Modules]

[These modules will be based on research conducted by the UN and the links and resources they have provided on their website. Our modules will aim to highlight the most important research or information and provide a condensed version of the expansive information.]

[Visual Plans]

[These plans will be proposed by us based on the research we have conducted and will aim to have a clear and easily understandable structure that can be followed and implemented easily by our two Northstar customers.]

### Project Exclusions

[We will not be researching new theories or information on the three topics mentioned above. The scope of new research on those topics is not feasible for the timeframe given to the project. ]
